

Challenges and opportunities for offshore renewable energies

By the members of the France Energies Marines'
Scientific & Technological Committee

Webinar

Tuesday 14 December

03:30 to 06:00 pm (CET)

Chairman: Jean-François FILIPOT, Scientific Director of France Energies Marines

03:30 - 03:55	Introduction <ul style="list-style-type: none">• Presentation of the Scientific & Technological Roadmap of the Institute Jean-François FILIPOT, France Energies Marines
03:55 - 04:25	Offshore wind innovation <ul style="list-style-type: none">• R&D activities on the floating offshore wind technologies at the National Renewable Energy Laboratory Senu SIRNIVAS, NREL (USA)
04:25 - 04:55	Grid and interoperability <ul style="list-style-type: none">• Interoperability in offshore transmission Salvatore D'ARCO, SINTEF (Norway)
04:55 - 05:25	Blue economy <ul style="list-style-type: none">• Using Marine Energy to Support Ocean Observations: Powering the Blue Economy Andrea COPPING, Pacific Northwest National Laboratory (USA)
05:25 - 05:55	Operations at sea <ul style="list-style-type: none">• Assessment of marine operations in the offshore wind industry Torgjer MOAN, Norwegian University of Science and Technology (Norway)
05:55 - 06:00	Closing speech <ul style="list-style-type: none">• Conclusion and perspectives Jean-François FILIPOT, France Energies Marines
